used for personal use in model-making, painting, and gaming. How is AutoCAD used in the construction industry? There are several ways to use AutoCAD to create construction drawings. Draftsman can create either 2D or 3D drawings with a click of the mouse. Alternatively, they can export these drawings directly to BIM-compliant software for 3D construction modeling. AutoCAD is also used in the manufacturing industry to create production drawings. Draftsman can create 2D drawings, 3D models, and 3D production drawings. AutoCAD

Trump's Budget Eliminates \$4.4B Funding for OSHA for 2020 (PRNewsFoto/A.G. Design)

20 May 2019 – President Donald J. Trump has released the Administration's Fiscal Year (FY) 2020 budget proposal to Congress.

Trump's budget seeks to eliminate \$4.4 billion in funding for the

Occupational Safety and Health Administration's (OSHA) budget for the federal Fiscal Year 2020.

According to OSHA, "The American worker is among the safest in the

---

world, but we can and must do better.” OSHA works to improve worker safety and health, and reduce incidents causing injury and illness in the workplace. Additionally, by reducing the number of incidents causing injuries, OSHA is able to reduce the number of workers’ compensation claims and premiums. According to OSHA, it is more than 3.9 million workers annually that are injured on the job, meaning that they are not able to perform their normal duties. An estimated 2.2 million of these workers are injured more than once each year. OSHA defines

---

workplace violence as when a worker is harmed or killed by an intentional act of violence, as well as by an act of violence committed in retaliation for the performance of their job duties.

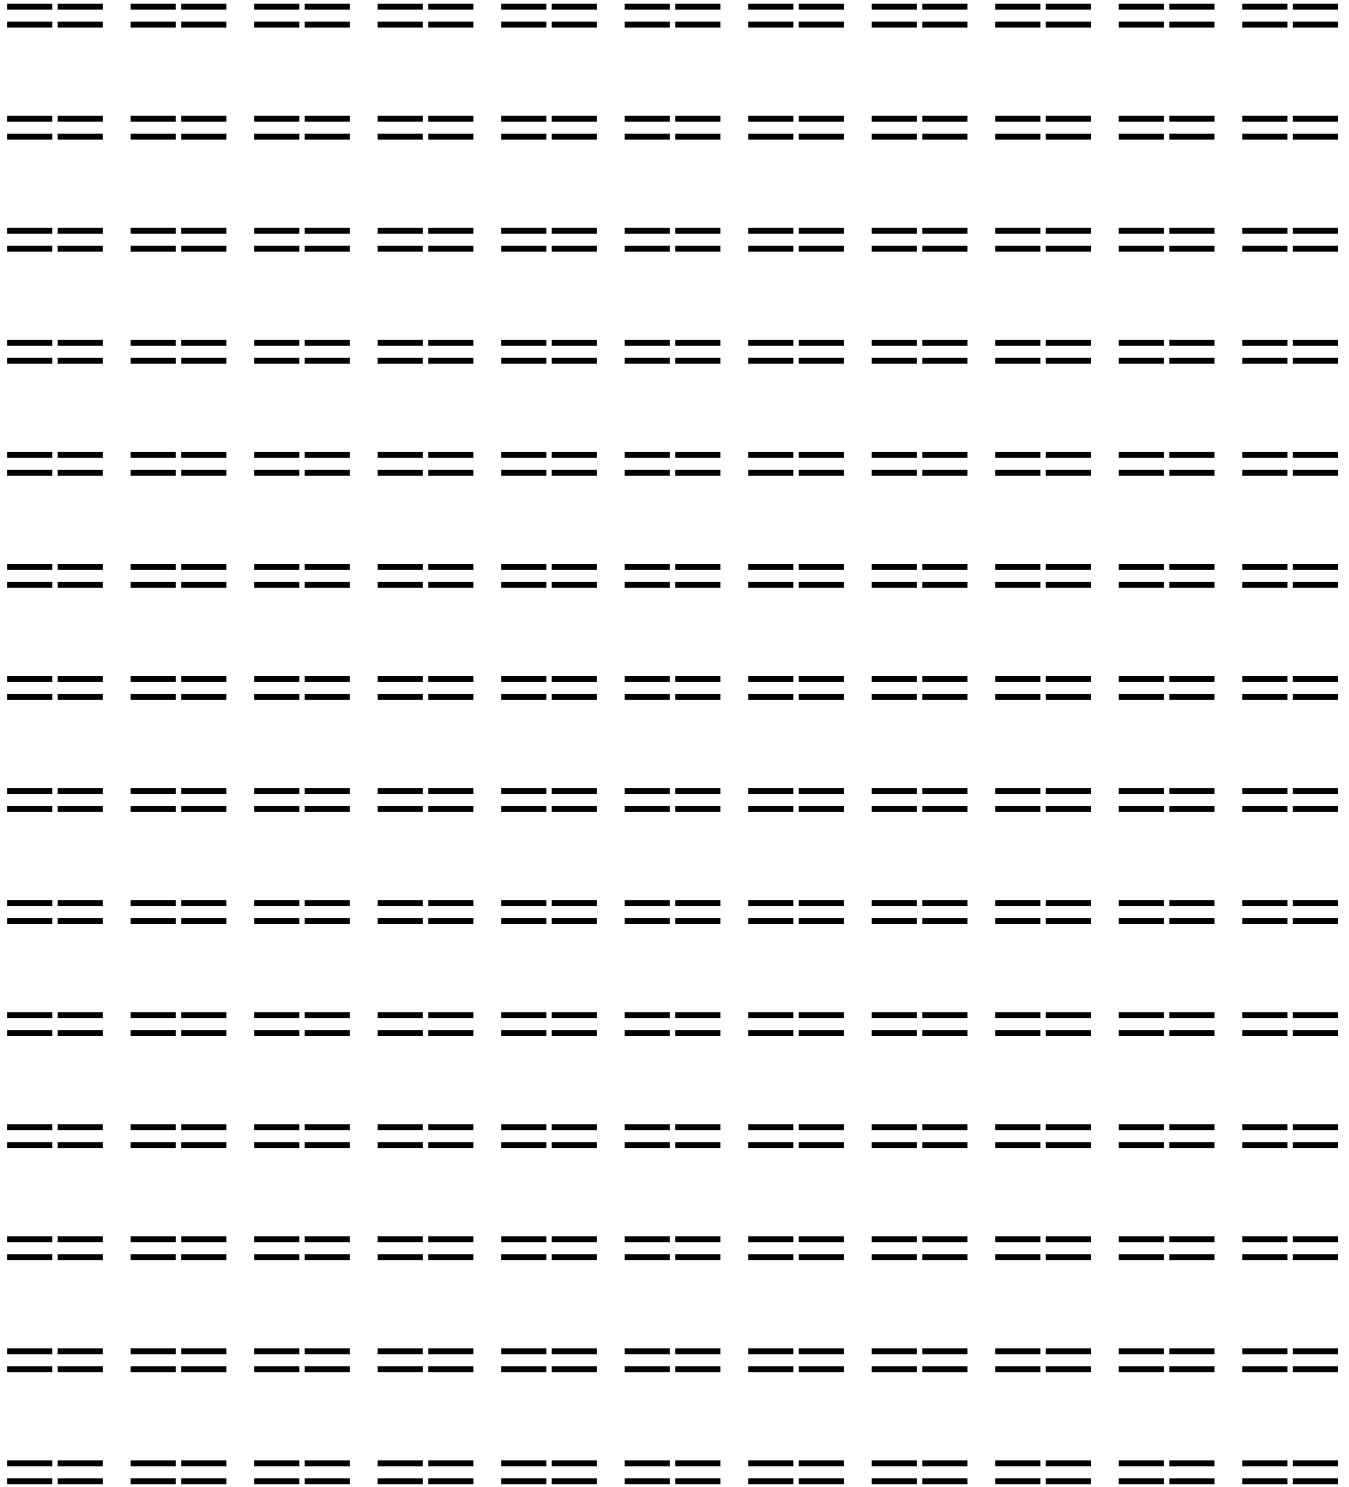

Every day, an estimated 2,800 workers die on the job and there are nearly 2 million nonfatal work-related injuries. “Every worker should feel safe in their workplace. Our budget would cut the funding for OSHA, which is essential to ensuring all workers are safe on the job,” said Donald Trump Jr., OSHA’s Acting Assistant Secretary for the Office of Standards. “Unfortunately, our nation
