Tarnished Legacy combines an RPG and an Action game in the form of an Action RPG. In Tarnished Legacy, the world is divided into three factions, the Elden Kingdom (white), the human Kingdom (gray), and the dark elves (red). These three factions are divided by a fight between them. The story takes place in the lands between these three factions, where the specific battlefields have been arranged to narrow the battle between the three factions as well as to deliver an on-the-fly battle. Through this, the war between the three factions has begun. Although the battles between the three factions are continuing on, there are also some dark elves who wish for peace and the disappearance of the Elden Ring from the world. Tarnished Legacy is an Action RPG that combines the charm of the battle scenes of the RPG genre with the feeling of the excitement of an Action RPG. The story of Elden Ring

In the Lands Between lived the people. The people named themselves Elden, meaning "The ones who belong to the Third [ring]" and filled their lives with simple things they didn't even realize were missing. One day, that changed. Steals and robberies of Elden's treasures were becoming more frequent, and the number of Elden thieves continued to grow. It was in this time of a devastating war that there was an ancient war between the three rings. At that time, there was a man whose name was Koystar. He had saved an Elden girl, and when the Elden Ring took her away, he began to interfere. In exchange for his help, the Elden Master Baterelu promised his promise to help Koystar become lord of the Elden Ring. Months later, with the

war winding down and reconciliation between the three rings in the works, Koystar and the Elden Ring were slaughtered in a traitorous attack by a gang whose hearts were being changed by a strange man. The Elden Ring wouldn't even dare go after the traitor, but the man's spirit offered his services as a scout, which was accepted. The time was ripe for a story to begin about the unnamed man who had infiltrated the sister ring. A city in an unknown world. Its name, people, merchants, and trade routes were unknown, and a large ship was heading in the direction of that city as a passenger. Five people disembarked from the
