Comprehensive Tutorial and Reference. Back to Top. Â

OpenGL SuperbibleÂ .Q: How can I make the tooltips of my controls pop up in the middle of the text? I'd like my tooltips to appear in the middle of the text. Here's a screenshot:

The reason I'd like to do this is so that the text does not get cut in half, and so that the links in the tooltips are readable.

What options do I have to do this? A: CSS Add the following to any style sheet that you use: .mytooltip { position:

```
absolute; margin: 15px; } div.mytooltip.tooltiptext { position: absolute; width:120px; top:35px; right:0; z-index:999; visibility: hidden; padding: 5px 0 5px 0; border: 1px solid #ccc; background-color: #FFF; color: #444; text-align: left; background-color: #FFF; }
```

```
div.mytooltip:hover.tooltiptext { visibility: visible; } HTML
```

Add the following code to your HTML markup: This is a tooltip #Sec20} We have performed several studies on 18F-Gal+Gal~2~ distribution after the injection of 18F-Gal+Gal~2~ into mice. Here we show representative images from one of them. In these experiments, a mixture of both tracers (18F-Gal+Gal~2~) at the same ratios as used for PET studies was intravenously injected into a healthy, age-matched male C57BL/6 mouse. Then the mouse was sacrificed 45◆
