## CITIC PB2 PASSBOOK PRINTER 11

in one sub post office, there is Olivetty passbook printer. In the accounts details page depositors name is printing correctly but the address portion is not printing. Two line blank space is coming and at the end city name is coming. What may be the problem if you don't know the model name or number, you can start to narrow your search down by choosing which category of lipi device you have (such as printer, scanner, video, network, etc.). Start by selecting the correct category from our list of lipi device drivers by category above. The problem area is printer drivers for lipi pb2 passbook printer which is very commonly used in banking industry. Earlier we were using IBM ProPrinter X 24 driver that came with the inbuilt drivers in Windows XP. I am using a Dymo Label-Writer 4 and have been trying to find a suitable driver for the printer. The only one available is by Lexmark, however, it appears to be old. I downloaded the HP and Syco drivers, but the printer is not recognised with these drivers. I use Windows 7 Home Premium, the printer is PB2, the manual is also available in English and Bengali. Resend to confirm your address Hello. I have a problem with my HP PB2 passbook printer, as you can see in the screen shot if I have the print window up, the printer prints fine. The problem starts when I want to print from my mail client to my printer, it says print page is not ready and if I click OK it prints out fine but no matter what I click and print, the printer still says print page is not ready. It worked fine just the other day and I don't know what happened. Please help
