esbeauslavep/libro-tecnologia-2-secundaria-editorial-castillo-pdf-download ... This repository has no tags. When you paste code into it, a tag is created for it with the name "doc" and the extension "docx". But if you want to create your own tags, you'll have to put their name and extension in the workbook itself so that other users can see them. So we will do the following. ¶ Let's create a new tag and name it "pasadena". Then let's open the "doc.pasadena.docx" file and look at the contents that opened in the formula editor: ¶ Scroll down and see what the description of the tag and its extension looks like. 0946cee1be
